Contact persons: Mr. Yuriy Sultansky, Director for Marketing and Gas Turbine Projects;  
Mr. Ruslan Byrsul, Deputy Director for Marketing & GT Projects-Head of Division  
Marketing Development Projects.
4. Company activity: design, development and manufacturing of gas turbines with rated power from 2,5MW up to 60MW for power generation, mechanical drives and marine propulsion.
5. Company markets: whole world (power plants, mechanical drives and propulsion plants).
6. Company has interest in all regions of the world, especially for China, EU, North and South America, Middle East, CIS countries, for export of the gas turbines for mechanical drives, power generation and marine propulsion.
7. Company has interest for all projects of simple cycles, co-generation and combined-cycles power plants with rated power of generator unit from 2,5MW up to 25MW, gas pipelines compressor stations and naval ships propulsion plants with total power from 3MW up to 100 MW.
